Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 1 FORMING INTEGRAL PART OF THE FINANCIAL STATEMENTS FOR THE YEAR 2016-17

Note 1: Significant Accounting Policies

1.1 Basis of Preparation of Financial Statement

These financial statements have been prepared to comply in all material aspects with applicable accounting principles in India, the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 ('Act'), the provisions of the Act & Rules (to the extent notified) and other accounting principles generally accepted in India, to the extent applicable.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013, based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents.

The figures are presented rounded off nearest to a rupee.

1.2 Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized.

1.3 Revenue Recognition

Revenue is primarily derived from sale of iodized salt. Revenues are recognized on accrual basis when the substantial risks and reward of ownership in the goods are transferred to the buyers upon supply of the goods except disputed claims, demands, discounts, rebates etc, which are accounted for on cash basis as per consistent practice. Revenues from Renewal Energy Certificate (REC) are accounted for as and when the same is sold in exchange however unsold REC have been shown as stock in trade as per consistent practice.

Expenses are accounted for on accrual basis and provision is made for all known losses and liabilities except disputed claims & demands and discounts, rebates etc., which are accounted for on cash basis as per consistent practice.

1.4 Tangible Assets

Fixed assets are stated at their cost of acquisition including all direct cost attributable to the installation less accumulated depreciation comprising of its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use. Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. Whereas Expenditure and outlays of money on uncompleted plant & machinery, building etc., which are of a capital nature, are shown as capital work-in-progress until such time these projects are completed and are put to use.

1.5 Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation/depletion and impairment loss, if any.

1.6 Depreciation

Depreciation is provided on a pro-rata basis on the Written Down value method at the rates prescribed under Schedule II to the Companies Act, 2013. Useful life of the assets has been taken as provided in the said Schedule II to the Companies Act, 2013.

1.7 Impairment

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Profit and Loss Statement in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. There is no impairment loss charged during the year.

1.8 Inventories

Inventories consisting of raw salt and packing materials are valued on the weighted-average basis and taken at the lower of the cost or net realizable value. Unserviceable raw material, if any, is valued at net realizable value. The cost of manufactured finished goods and work-in-progress includes material cost determined on weighted-average basis including an appropriate portion of allocable overheads. However, it does not include interest and administrative overheads which are indirect in nature. In absence of any other reliable estimate, taking a prudential approach inventory of Renewable energy certificate (REC) have been valued at net realizable value which is the minimum price of such certificate at which the same are sold in exchange.

1.9 Provisions and Contingent Liabilities

Provision is recognized in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognized nor disclosed in the financial statements

1.10 Employee Benefits**1.10.1 Short Term Employee Benefits**

The amount of employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services. These benefits include performance incentive and compensated absences.

1.10.2 Post-Employment Benefits

recognised as an expense in the Profit and Loss Statement during the period in which the employee renders the related service. The liability in respect of defined benefit plans and other post-employment benefits is calculated on estimated basis and charged to the profit and loss account.

1.11 Employee Separation Costs – Non Compliance of Mandatory AS-15

The company does not provide for leave encashment, medical etc. and the same is accounted for on cash basis as and when actual payment is made. The mandatory accounting standard AS-15 requires that an actuarial valuation of the retirement benefits be made. Though, provision is made as per company's own method, however, no such actuarial valuation report has been taken nor any other prescribed method is followed to provide for the pre or post-retirement benefits for the employees. As such AS-15 not stood complied with however, impact on profit is not ascertainable. The impact not expected to be substantial no qualification of the audit report is made.

1.12 Investments

1.13 Current & Deferred Tax
